

2016 Weekly Savings Challenge

Saving a small amount each week can make a huge difference.

By saving the amount equal to the week of the year, you can save almost \$1,400 in one year!

Simply make a deposit into your savings (or a mason jar!) and record the amount every week, crossing off that amount at the bottom so you save a different amount each week

<i>Week</i>	<i>Deposit</i>	<i>Balance</i>	<i>Week</i>	<i>Deposit</i>	<i>Balance</i>
